Verse 1

I stare into the darkness
Of the depths of life's abyss;
Reflecting on the moments
That I missed without you.

Chorus

And I've been high and low,
Through the wind, the rain, the snow.
There's no place left to go without you.
And I'd be high I know
If I'd never let you go,
And my senses overflow without you.

Verse 2

My search has only led me
To a dark and empty hole.
The only thing that's left me
Of my soul without you.

Chorus

And I've been high and low
Where the wistful waters flow;
Like some tragic picture show without you.
And I've been high and low
And you'll never even know
That I've got no place to go without you.

Instrumental Bridge

Chorus

And I've been high and low,
Through the wind, the rain, the snow.
There's no place left to go without you.
And I'd be high I know
If I'd never let you go,
And my senses overflow without you.
