Intro

Wake up in the morning and the sky was so grey /
But I know I'll be okay
Today is gonna be a good day
Because I got you right here/

Verse 1

Good morning, good morning tell me how you doing/
I am feeling so good and I know this is a new thing/
You cha-cha-cha-cha-cha change the colors on my
mode ring/
And because of you the weather is improving /
Yeah you brighten up my darken days /
And I know that we in the starting phase/
But I hope that we won't parting ways/
Because you're the only one that understand
My heart when it rains /
I feel you deep, deep like the ocean sea/
And these waves of emotions has just open me/
To your spoken words real poetry /
All the love and the hope that you pour in me/
And I hope that you will never leave (no)/
You're the cool in the summer breeze (yeah)/
You're the warmth in the winter freeze /
You make my grey sky disappear with so much ease/

Chorus

Wake up in the morning and the sky was so grey /
But I know I'll be okay
Today is gonna be a good day/
Because I got you right here/

Today is gonna be a good day
Because I got you right here/

Springtime, summertime yeah you be my sunshine/
You light me up like fireworks yeah we had a fun time/

You keep my heart B B B B beating like a drum line /
They say love is crazy they say love is so blind/
But you open up my eyes to see /
All the wonderful things hidden in me/
Cause my mind was clouded with hate and misery /
But you restored my faith and delivered me /
I can see the storm and its looking so dark and grey/
Let the pain fall and in time it will wash away /
I give you my all and the truth not afraid to say/
That I need you now and I need you to forever stay/
And I hope that you will never leave (no)/

Youâ€™re the warmth in the winter freeze /
You make my grey sky disappear with so much ease/
