Mama sayin' now won't you hear the man come with the
rainwater
Gonna pass between you and I
Mama sayin' now won't you hear the man come with the
panwater
Everytime now your heart runs dry
She's sayin' now won't you put it in your heart now go
Don't be standing around like you just don't know
It's gonna make you cry
She's sayin' now won't you put it in your heart and take
it
'Cause I don't know how you're ever going to make it if
you just that's why
Hear the man come with the rainwater
Gonna pass between you and I
Mama sayin' now won't you hear the man come with the
panwater
Everytime now your heart runs dry
She's sayin' now don't be looking at me, I ain't going
nowhere
Take your time now cause I may care when I make you
cry
Brother don' t fear the rain, brother don' t fear the rain
