Words and words and words, on the page appear  
Said where's the love, oh my dying friend  
Oh, you're right, you said you didn't know  
Oh, you're right, you said you're bringing me down, by  
two

Why and why we wonder now  
Why it is you said you're coming down  
Oh, you're right, you said you didn't know  
Oh, you're right, you said you're bringing me down, by  
two

Why and why and why we're left wondering  
Where's the love you said, my dying friend?  
Oh, you're right, you said you didn't know  
Oh, you're right, you said you're bringing me down, by  
two
