### **"Miracle Crash"**

Visit "[Miracle Crash](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I need a miracle like nothing else  
I've got overkill so you know you help yourself

It don't want evidence  
It don't need medicine  
It won't take anything  
It don't give afterglows  
Oh nobody knows like me

Did you see them fall, crash against the wall  
So sad to watch it all end this way  
Did you feel the pull, pushing for the kill  
In miracles  
They tell me all the time

I need a little blood to pick me up  
I've got the bitter stuff but you know it ain't that  
tough

I won't apologise  
For all the little lies  
That I can't keep inside  
It don't come dressed in bows  
Oh nobody knows like me

Did you see them fall, crash against the wall  
So sad to watch it all end this way  
Did you feel the pull, pushing for the kill  
In miracles  
They tell me all the time

You can take it to the water you can't make it think  
The man said, don't smoke, don't drink  
You just don't rock at all

Did you see them fall, crash against the wall  
So sad to watch it all end this way  
Did you feel the pull, pushing for the kill  
In miracles  
They tell me all the time
