Walk away, you mask your face, hide behind your faith,
no saints, no saints, just slaves. Just criminals, you're
all the same. You're all to blame. And I could strike you
down, but I'll just call you out. You preach a truth, a lie,
a love so divine, you say we're children of god but
you're no son of mine. No you're no son of mine. How
can we love with venom running through our blood?
How can we be loved for the things that we have done?
And when we speak, we speak into tongues. To swallow
your speech, is to poison the words in the verses that
are sung, and you're wrong, there's shit all written in
the stars. Choke on your words, I'd rather sit here and
starve. Drink to cure the thirst, die for the cause. You
say everything in silence in your pause. Oh, god, isn't
the truth raw? Well I'd rather know that then believe
love that was so god damn false. heartless fiend you
say you love, but true motives speak, so listen to these
words while your world decays and you will hear no
doubts believe when I say that. We're all slaves living in
a brainwashed age, plant in us the lies that you seed,
you think you reap what you so? I'll spit it back in your
face and watch the shit grow over and over and over
we go. over and over and over we go. Cowardice your
mark the face of the ignorant you can hide behind the
cross ill live for my sins
