You already know, Gotham Citi

(Verse One)

I, didn't even notice

You sleeping over every night

See usually I would be trippin'

But something's come over me

Diligently you waited

Finally I let down my guard

Opened up my arms

I'm not the man that I used to be, no

(Chorus)

Baby look what you've done to me, now you're all I see

I wanna be, I wanna be more

We've been fooling round for much too long

Baby girl we're way too grown

I think it's time that we make this thing official

Make this thing official

Make this thing official, can we

Make this thing official

Ohoh oh oh oh

(Verse Two)

I never thought I'd be the one for love

I'm used to jumping from girl to girl, I

But then you came along and then you changed my
mind

And I don't wanna be a player no more

Girl, diligently you've waited

Finally I've let down my guard, opened up my arms

I'm not the man that I used to be

(Chorus)

Baby look what you've done to me, now you're all I see

I wanna be, I wanna be more (I wanna be, I wanna be
more)

We've been fooling round for much too long

Baby girl we're way too grown

I think it's time that we make this thing official (will you
be mine, will you be mine girl)

Make this thing official (will you be mine, will you be mine girl)
Make this thing official, can we (will you be mine, will you be mine girl)
Make this thing official (will you be mine, will you be mine)
Ohoh oh oh oh
