"With Your Head Below Your Heart"

she's never coming back to you,
no matter what you say,
no matter what you do,

just breathe with your head below your heart
is what they say
when you crush this heart,

say what you wanted to say,
cause we're all alive here,
we're alive here,

come down to me,
qu'est que tu fais ce soir,
i wanna rock you, too,

everything is coming to an end
and when i say this, she says that,

i turn around to see her one more time,
but she wanted me to leave
and i wanted her to smile,

say what you wanted to say,
cause we're all alive here, we're alive here,

come down to me,
qu'est que tu fais ce soir,
i wanna rock you, too
