Pop, pop, pop bottles  
Pop bottles, in the, in the club  
Pop, pop, pop bottles  
In the club  
Have a few hits now we change the game  
Here gets crazy when you get to fame  
Different city every night but it's all the same  
Everywhere I go, people know my name  
Bring champagne you cand hold the glasses  
What we don't drink we spray the masses  
And if you can't keep your ass is uslees  
Cause all we do is

Pop bottles, make it rain  
Every night it's all the same  
Hit the club, hit the after party then we hit the plane  
Pop bottles, make it rain  
Every night it's all the same  
Hit the club, hit the after party then we, then we, then  
we

Pop bottles, make it rain  
Every night it's all the same  
Hit the club, hit the after party then we hit the plane

Come in the club like who that, that  
I'ma break it down, how you do that, that  
Couple more shots, what you move that back  
Skinny pockets all slow, cause the mula ...  
Big bad, we on top, live life like a green light, we don't  
spot  
Grow on tree baby we got crop, then we got this club on  
rock

The club is really down and I'm feeling something  
feeling  
Alright, alright  
All these ladies come around, watch me break it all  
down  
Alright, alright

Pop bottles, make it rain

Every night it's all the same  
Hit the club, hit the after party then we hit the plane  
Pop bottles, make it rain  
Every night it's all the same  
Hit the club, hit the after party then we, then we, then  
we

Now put your hands in the skt, wanna get drunk tonight  
And wave em side to side, wanna get up, now put em  
up, oh get down  
The club is stead jumping, jumping, jumping, say  
what?  
The millions steady bumping, bumping, bumping, put  
em up  
Love is steady jumping, jumping, jumping  
Pop, pop bottle,s make it rain  
Every night it's all the same  
Pop bottles, make it rain  
Every night it's all the same  
Hit the club, hit the after party then we, then we, then  
we  
Big bad motherfucker!  
Hey, hey, hey, let's go  
Go, go, go, go, go, go, go, go, go, go, go, go, go!
