Close your eyes
Before you hurt someone
Close your eyes
Before you hurt someone

You don't know what they do
Cut a strong man in two
Such a dangerous blue
I've fallen into
Into

Close your eyes
Before you hurt someone
Close your eyes
Enough damage been done

I don't want you to see
What they're doing to me
Cause a statue to bleed
And fall to it's knee

But I can't look away
From your beautiful face
It so bitter sweet
What kills me, I crave

You can't stare at the sun
You can't unshoot the gun
So close your eyes
Before you hurt someone
