Nobody wants to live in the middle
Cause nobody wants to be left alone
Nobody wants to live in the middle
Cause nobody wants to be left alone

And I believe, and I believe in action

Not moving does not mean you don't move
Not moving does not mean you don't move

Nobody wants to sit in the middle
Cause nobody wants to sit alone
And I believe, I believe in action

Don't imagine anything, don't imagine anything,
Don't imagine anything at all

I believe, I believe in action
I believe, I believe in action
I believe, I believe in action
