First guess, best guess  
Unless, actress  
Little bit of light, that's alright  
Do it anyway, no better time comin'  
Got no trust, too much fussin'  
Red line slow, you don't like bussin'  
Let me see, give me a minute  
Need to look it over, put my bird brain in it  
What if it's bad? Way too hot?  
What if I get what the fat man's got?  
Got to be smart, take your cues  
Sniff that air, read that news

Make up your mind [x3]

What if it's filled with poison air?  
What if we step and the ground ain't there?  
Ain't no sucker, been here before  
Face smashed in, swinging door  
If I've learned something with age  
It's golden bars for a golden cage  
Don't push, my space  
Human race, replace  
Don't push, my space  
Human race, replace  
Don't push, my space  
Human race, replace  
Don't push, my space  
Human race, replace

Make up your mind [x4]
