Tender light upon frozen ground  
Approaching the celestial one  
Scene of beauty appear before  
My fainting eye - a sign

Floating closer, transcendent light  
On this magic night revealed  
"From far, creator of time"  
Answers in time

"On your dimension  
You're destined to be  
A passive observer  
Of life's mystery"

Heed the call  
Of the enlightened conscious ones  
Time has ceased  
By the trance, you'll see the light

Bring the sign  
Bring it onto  
The humankind to all

"A prophecy of our reign
