Pictures and sounds are running
I can't help but I stare at it
This action makes me start thinking
All of these thoughts start rolling
My mind drifts then it goes blank
Time's to fast, this time it's gone

Take me back in time when
Words and meanings made sense
And comprehension stood alone
Catechize me feelings
And operate my senses
Time's to quick, this time it's gone

A perfect circle is what I resolved about it
But sadly I'm blinded to know
A perfect circle is what I resolved about it
But sadly I'm blinded to show
