Boor

Heavy drinks and bad cigars  
Are all in your head  
Feeling so excited  
But you know that you're dead  
Can't you see around you that you're  
All by yourself  
All you need is free your mind and realize  
Tha time is your friend

Get your truck and drive away  
Forget the damm thing  
Live your life that you were tought  
You know what I mean  
All you need is free your mind and realize  
That you're not afraid.

Nothing ends  
Nothing inside you

Surrounded by the colours  
Tha you never have seen  
Surrounded by places  
That you never have been  
Can't you clean your mind  
Cause you are no longer blind  
Another day on road alone you must pray  
That you are alive

Lighting up your cigaret  
Whith thoughts in your head  
Drinking up your whiskey  
Is the more you can get  
Stuck up in a motel you are turning  
All over your bed

Nothing ends  
Nothing inside you
