We were a stone
'Til they broke our bones
We got warm
Knowing not to know
And we were broke
We'll always be alone
We were the snow
Til we found a home

All the stones
Everybody knows
Blessed snow (?)
You'll never see them glow
But our hearts
Are never gonna grow
To the stars
Everybody knows

Everybody knows
Everybody knows
Everybody knows
Everybody knows

Everybody knows, everybody knows
Everybody knows, everybody knows
Everybody knows, everybody knows
Everybody knows, everybody knows

Everybody knows, everybody knows
Everybody knows, everybody knows
Everybody knows, everybody knows
Everybody knows, everybody knows
