## "I Don't"

Lack of vitamins in your eyes, I see a shape, I see a  
shape when they meet  
Mine  
Decline of thrill when I'm in your arms, I feel a change  
but I feel the  
Chance to warn you  
Take your decision, it sounds like  
I failed a mission, am I right?

Many lies and many roles, I'm done, I'm done  
Many tries and many roads, I'm done, I'm done  
We were led on false tracks, and I don't, I don't  
I don't want them to come back, no I don't no I don't

Did you get maced or did you cry?  
I'll never know if, I'll never know if  
Your words were lies  
I feel like you might be the main part  
Of other stories, of our stories  
Stop feeling sorry for ourselves  
It's not very attractive I might say

Many lies and many roles, I'm done, I'm done  
Many tries and many roads, I'm done, I'm done  
We were led on false tracks, and I don't, I don't  
I don't want them to come back, no I don't no I don't
