For thousands of years we've reigned the world  
By bringing you plagues and war  
No matter how you try to improve the world  
We'll always be around to reap our share  
We are the henchmen we are the DEVILS front  
We are the ones who takes you to where you belong  
All evil you've done has to come around  
It's time for you to face the evil one  
It's time for you to join our crew  
We are the henchmen we are the DEVILS front  
Touched by the Devilish one  
Carrying out the last strike  
Bringing your soul to the other side  
Leaving your body to rot  
We are the henchmen we are the Devils front
