Lesson learned, learned today
My lesson learned, I learned this today
I'm too close to stay away
I'm too far to try and stay
Oh hurt me slowly, I feel your beauty
In every pulse of your sacred heart
Oh easy, easy, watch your cruelty
I felt it faintly from the start

But I don't want to be you
I just want you here, I say
And I don't want to see you
I just need you near
Here we go now

No, no, but yes, but yes, but yes

Head full of these useless questions
I can't redeem my old temptation
Oh medicate me to ease my pain
Love me, know that I'm insane
Oh hate me, but use me to your liking
Oh yell at me to stop these voices
Become the you, just stop regretting
We're just animals aware of choices
