(Tommy Page)

Here I stand looking in your eyes

Being with you makes my spirits rise

I reach out, and hold you closely

You're like a dream to me

Chorus

I'm madly in love, so in love with you

It feels like heaven above, so madly in love

You're making me feel brand new

I'm madly in love with you

Warm winds blow and the stars are out

It's the perfect night to tell you about

All the feelings your love has to bring

You're my everything

Every time I'm with you, I'm in ecstasy

'Cause the moments that I share with you

Feel like heaven to me

And lonely times, fade away

As long as you're here to stay
