I live in a doorway in a cardboard box,
Since I lost my job my life's on the rocks,
I've lost my family and I've lost my mind,
I've lost all hope that I can rewind,

Chorus

Yes I'm homeless and I live on the street
I beg and steal just to stay on my feet,
I'm one of the dregs of society,
Can you spare some money governor for a cup of tea,

I never have a bath my clothes always stink,
I never take a shave, my breath smells of drink,
Well having no address is the biggest snag,

I carry all I own in a plastic bag,

Chorus

Since I lost my home no-one has helped me,
They always pass the buck, they won't speak to me,
The people at the social they don't give a shit,
I'm just a human being but my face it don't fit,

Chorus

What's the point in living, I'm always so depressed,
People sneer at me, they think I'm a pest,
I'm not harming you so what's the crack,
Just leave me alone and get off my back,

Chorus
