Well if you told me that I'd fall in love at first sight
I would say That there's no way, do not even sound
right
But when I saw you in the club just the other night
I Seemed to lose my way
There was something in the air like a sweet smell
And you were standing there casting your spell
And When You took me with the kiss
It was candy to my lips
It was like the black cherry flavor of the midnight sky
It was black cherry just like the color of my baby's eyes
It was like the black cherry flavor of the midnight sky
It was black cherry just like the color of my baby's eyes
Like the color of my baby's eyes
So now we're zooming through the back streets all
night
With your arms around me tight like a magic carpet
ride
And there were nothing in the world right now That do
not feel right
We're gonna find our way
Cause there's something in the air like a sweet smell
And you are standing there casting your spell
And When you take me with your kiss it's like candy to
my lips
It was, it was, it was...
It was like the black cherry flavor of the midnight sky
It was black cherry just like the color of my baby's eyes
It was black cherry
Black cherry
Just like the color of my baby's eyes
