Out in the water
That I am under
I spend my time

Old water tower
Up to the top I climb
I step into the sky

What I can't offer
I'm sure your soon to find
Die young and save your life

All in this circle
With our weapons high
We cringe our teeth and die

Ahhh
Ahhh
Ahhh
Ahhh

Oh well finding my religion
Oh it wasn't what it seemed
This town took hold of me

Oh the cost of my decisions
All the money couldn't see
When time's what grows on trees

Whooo!

Move over there's a vicious storm
Commin from a mile away
You used to take me to a fiction world x 4
With every smile you'd make
