We sit on the fence, we give our two cents and never  
take the floor,  
But in our defence, it kinda makes sense to shut up  
and ignore  
Act wise think clever, or we will stay like this forever

There's nothin' to eat, the kids on the street, they fight  
a losing war, Â  
The rich and elite, control and defeat and keep on  
taking more  
How can we wrestle with a power making a million  
bucks an hour

Rise Up, Rise Up, Rise Up, Rise Up, Rise Up, Rise Up,  
Rise Up, Â Rise Up,  
Rise Up, Rise Up, Rise Up, Rise Up  
Or this will never get better, yeah we will stay like this  
forever, ah  
We'll never get better, we'll never get better  
Rise Up! Â

Get off your chair, pull out your hair and make a bit of  
noise  
Get on your feet, Twitter and Tweet, your fingers are  
your voice  
You gotta be a go-getter, a radical trendsetter

Rise Up, Rise Up, Rise Up, Rise Up, Rise Up, Rise Up,  
Rise Up, Rise Up,  
Rise Up, Rise Up, Rise Up, Rise Up  
Stand and deliver, cos we ain't takin' this forever, it's  
now or never,  
It's now or never, Â

When you re-educate your mind from the kind that is  
blind to the grind, you  
Will find that the time you assigned to define when the  
vine would unwind  
Was a waste, outta place, just a taste of a race who  
displace and disgrace  
Those who face all their days in a maze no escape  
from the rape or the tape

They have wound all around, we are bound, like a  
hound to the ground, face  
Down as they pound, pound, pound without a sound

So what are we gonna do now?  
I think we should march... Alright let's march, together  
We'll show them how  
We can do it, Â  
We can make this happen  
We can get there  
Aw yes, we can get there

But we gottaÂ  
Rise Up, Rise Up, Rise Up, Rise Up, Rise Up, Rise Up,  
Rise Up, Rise Up,  
Rise Up, Rise Up, Rise Up, Rise Up  
Stand and deliver, cos we ain't takin' this forever, it's  
now or never,  
It's now or never, Â  
So give 'em the word  
Give 'em the bird  
And tell 'em where to go
