Don't misread the silence
And take my distance as a sign
There's only one heart that's confused
And it's most likely mine
I always make the rules
And change 'em all the time
Always stayed a step ahead
'Til you looked in my eyes
My thoughts are frozen
Can't you hear me screaming inside
As you come closer
Don't know where to run this time

Chorus:

I feel weak, I'm never weak
I always know what to say
Don't look at me, I can't speak
How did you get to me this way?
All I know is what I feel
And what I feel is way to real
Who I am is what you see
Baby how did you ever get to me,
Ever get to me, ever get to me

It could be so easy
If you'd make one mistake
Then I won't feel the way I do
And I'll say it's fate
But this emotion
I keep tryin' to leave behind
Keeps getting closer
Don't know where to run this time

Chorus
