Yeah, I'm lost in you
And I love you

I never thought my intentions were to be in love
But due to tenderness, you stole my heart away
Being so in love is what we do best
Your love's so tempting, I can't keep myself away

My heartbeat's so intense now
Whenever you're near me, I give myself away
My love, you're so in touch now
Whenever you're near me, our love is best this way

I'm lost in you and I think I love it
There's nothing quite about it, you are the one
Baby, I'm lost in you and I think I love it
There's nothing quite like it, you are the one
Baby, I'm lost

Seems like giving this the only thing to do
You take me over, I like the things you do
And being so in love is a joy to me, yeah
You won me over, I like the joy you bring

My heartbeat's so intense now [whenever you're near me]
Whenever you're near me, I give myself away
[Babe, you know I love it]
My love, you're so in touch now [when-ever]
Whenever you're near me, our love is best this way
[ahh!]

I'm lost in you and I think I love it
There's nothing quite about it, you are the one
Baby, I'm lost
I'm lost in you and I think I love it
There's nothing quite like it, you are the one
Baby, I'm lost

[Interlude]

I'm lost in you and I think I love it (I think I love it)

There's nothing quite about it, you are the one (for me)
Baby, I'm lost
I'm lost in (oh...) you and I think I love it (I think I love it)
There's nothing quite like it, (you're the one I need) you
are the one
Yeah, baby, I'm lost

I'm lost in you and I think I love it [whenever you're near
me]
There's nothing quite about it, you are the one (the one
for me)
[Babe, you know I love it]
Baby, I'm lost
I'm lost (oh...) in you and I think I love it [when-ever]
There's nothing quite like it, you are the one (the one
for me)
Baby I'm lost
[Fade]
