

## Pailhead

### "Man Should Surrender"

Visit "[Man Should Surrender](#)" on MotoLyrics.com

You engineer the stratosphere

You command this hemisphere

But water will still come

Man should surrender

Rearrange forms of life

Battle night with your lights

But water will still come

Man should surrender

Flying boxes through the air

Dropping cities everywhere

But water will still come

Man should surrender

Fire made for all to burn

Foolish end for all concerned

But water will still come

Man should surrender, surrender now
