Staring at the sun  
I know he's the only one  
Who can lift me up today  
Close your eyes and fade away

He will ever have a show  
When the way I want to go  
Two three four five and we are there  
With this gaudy tasty flair

And I know it's ok  
He will be with me and guide my way  
It is sometimes hard to see  
All I've got is not for me  
It is given from above  
By a higher love (higher love)

The 89ers are back with the sound

Higher love Higher love

Higher love Higher love  
Hua

Staring at the sun  
I know he's the only one  
Who can lift me up today  
Close your eyes and fade away

He will ever have a show  
When the way I want to go  
Two three four five and we are there  
With this gaudy tasty flair

And I know it's ok  
He will be with me and guide my way  
It is sometimes hard to see  
All I've got is not for me  
It is given from above  
By a higher love (higher love)
