When you're in the club
And the girls are hot
Never let it drop

Dancing to the beat
Whiskey tastes so sweet
Never let it drop

Luscious lips caress
Your neck, oh baby, yes
Never let it drop

Cornered in the dark
There's no room to stop
Don't you let the beat drop

Baby, let's get out of here
Let's have a party at my place
Take me out
Baby, don't let the beat drop
I'll put your picture up, Myspace
Take my clothes off, baby

"Work it!"
(Don't drink that Kool-Aid)
