

A Brighter Balance "Anyway"

Visit "[Anyway](#)" on MotoLyrics.com

So I saw your face tonight, tonight, and I know
everything is not right
But in time, we'll find, we are better alone and so

I just think that
We could have made it
Besides the fact that you never felt the same

So take the memories
And leave me lifeless
I now have found I don't need you anyway

So I guess we can say we tried, we tried, but in the end
that's not truth
It's just lies
So goodbye, those pretty eyes

I just think that
We could have made it
Besides the fact that you never felt the same

So take the memories
And leave me lifeless
I now have found I don't need you anyway
