We all are craving for the life we can not get
The mystery of mankind's complex DNA

We're running out of meaning
We're running out of being alive
We have no purpose breathing
Might as well just spit and die

Live fast, die young
Who cares about the world when it soon will be gone?
Burn fast, die hard
There is no future and there's nowhere to run

I won't support the lies of saving our whole world
We're already out of time and soon we all gonna burn

The climate is big business, everyone's trying to make
a dime
We have no purpose breathing
Might as well just spit and die

Live fast, die young
Who cares about the world when it soon will be gone?
Burn fast, die hard
There is no future and there's nowhere to run

The floods and hurricanes harvest lives
It's just a taste of cynic paradise
We're all gonna die

Live fast, die young
Who cares about the world when it soon will be gone?
Burn fast, die hard
There is no future and there's nowhere to run

Live fast, die young
Live fast, die young
Live fast, die young
Live fast, die young
