Now I've got something to say  
So just get out of my way  
I won't take shit from you or anyone that stands in my  
way  
I've been quiet too long and now it's out of control  
I've had it up to here and nothing's gonna stop me now

I don't believe in god or destiny  
I always lived my life with one foot into the grave  
The world is cruel and filled with enemies  
I take my chances cause I know my life won't go  
anywhere

We're searching, we're burning out  
It's hard to find when both feet are nailed to the ground  
We're stranded, we're all tied up  
We're hammered down with both feet are nailed to the  
ground

Nothing in life is for free, everything has price  
You start to pay when you're born until the day you die  
They turn you into a machine and keep you in the line  
If you fall out of their path they will come after you

I don't believe in god or destiny  
I always lived my life with one foot into the grave

We're searching, we're burning out  
It's hard to find when both feet are nailed to the ground  
We're stranded, we're all tied up  
We're hammered down with both feet are nailed to the  
ground

Ah, I won't go down on my knees  
They won't stop until I hit rock bottom  
No... I won't go down on my knees  
In this government controlled society  
NO NO NO... I won't go down...

We're searching, we're burning out  
It's hard to find when both feet are nailed to the ground  
We're stranded, we're all tied up

We're hammered down with both feet are nailed to the  
ground
