

A Doom "My Own Way"

Visit "[My Own Way](#)" on MotoLyrics.com

One day I heard a voice
That led me to this world
Nothing could stop me
No love no drug and no girl
And I have made my choice
I'm going down this road
No turning back this is
My first and my first chord

No matter what you think
But I'm still going my own way
This is my fate and destiny
No matter what you say

The people look at me when
I walk the streets
Like I'm some kind of freak
They might think I've lost it
But atleast I know what
I want to seek
You'll never understand
So don't you ask a reason why
Don't give a damn if I lose
I want to give it a try

No matter what you think
But I'm still going my own way
This is my fate and destiny
No matter what you say
