Open sky on an open road
In a world that's bent and broken
Sit back and take the time
To look through my eyes
I've seen so many things
In different cities on different nights
New faces come and go
As we drive coast to coast

Live it up, live it up
This is all we've got
Along with the thought of another day, another night
Nothing left to lose
These are the paths we choose
Live it up, live it up
This is all we've got
Take notice, we'll never stop
Nothing left to lose, nothing left to lose
These are the paths we choose

Sleepless nights with the ones held close
Funds are low, but our spirits high
Twisted paths down the roads we drive
Funds are low we continue to fight

We stand as one (WE STAND AS ONE)
These are the ones I love
We stand as one (WE STAND AS ONE)
Taking over every city one by one
We stand as one (WE STAND AS ONE)
Funds low, our spirits high
We stand as one (WE STAND AS ONE)
Driving through these sleepless nights

(Sit back and take time to look through my eyes)

An the road, all the time, keeping our goals kept in
sight

In different cities on different nights
New faces come and go
On the road, all the time, keeping our goals kept in

sight
