Yeah, we had our time
Everything seemed just fine
You went ahead and opened your mouth
Those words they crossed the line

Keep running your mouth
Keep running, keep running
You're fooling no one, you know our past.
You know it haunts you.
Keep running, keep running

We're over these circles
It's back and forth and back and forth
Cause a pain in my spine
It's such a waste of time

Idolize the ones you hate
And accept this fucking fate
No future
No family
No place to call your own

Exposed coward
What's your worth
Expose cowards
We've seen your worth

Know that they've seen your face
Your colors fade and bleed away

Take it back
Take it back
Take it back

These words will never be taken away

Take it back
Take it back

It's worth a try
There's no escape, so you'll fade away

Take it back
Take it back

It's worth a try
You paved your way, you dug your grave

Take it back
Take it back
Take it back
You paved your way, you dug your grave

Deadweight minds
Feeding deadweight lines
You've had your time to speak
Now I have mine
