Feeling your real suffer and pain  
Leaded by false blood dripping fake gods  
Serpents are poisoning your virgin soul  
Knowing that you will submit to their calls  
They will readjust your mind  
Till your last breath till you die  
You will admire their declaration  
Till your final hebetation

New age, the system that you follow  
Supporting, the gathering of hollows  
Do you mind their holy smoking?  
Are you anxious for their falling?

Suffering the pain without asking why  
Resounding the screams of their tortured lie  
It's time to lose the powers that you have  
Cause you'd never faced spiritual starve

Fake gods lead the order  
Fake gods of chorochronos
