And so we meet again
Just here in the same maze
I try to find a way
But you control me anyway
I feel, I'm out of you
Improving my minds view
Of dreaming I touch the key
But suddenly you stop me

I hate myself for hating everything in you
I long to be something greater than you

Hey god of love, you teach me how to hate
Deal with my own hate, all I get is pain

The greed I take from this world
Is sucking me dry
You still believe I am in you
But you letting me die

Perfect creatures of glory
Climbed down from the stars
