What once felt near in a former sentimental year  
Slowly disappeared, but the more we try the more it's  
getting real

Words once felt near, by the way, I won't get hurt in  
here  
My truth concealed but the more I try the more it's  
getting real

Somewhere there by your side  
Somewhere there crystaleyed

We're somewhere there the way we were  
Somehow, sometimes  
We're somewhere there the way we were  
Somehow, sometimes

A hundred heights from here I am still in love with you  
my dear  
All you need is, all we need is, all I need is  
Everything's revealed

Somewhere there by your side  
Somewhere there crystaleyed  
Somewhere there by your side  
Leave me here paralyzed

This time is the first time to feel best, mine  
Just the way it's got to be

It's for the first time I can rest, fine  
Just the way it's got to be

Don't mind about those rhymes such hard to find  
Just the way it's got to be

Always on my mind and for all time  
That's the way it's got to be

All we need is all we need
