

A Home. A Heart. Whatever. "Inspiration Medication"

Visit "[Inspiration Medication](#)" on MotoLyrics.com

Expectations overrated
Inspiration is medication
Conversations unrelated
Destination isolation

You know it is time for us
Not to be fooled anymore

Yes I know, you know

Intermission, indiscretion
Competition, no decision
Exhibition 'malnutrition'
Whatever is your definition

You know it is the time for us
Not to be fooled anymore

The time for us has come to take control
The time for us has come to save our souls

Registration activated
Modulation self-expression
Concentration saturated
Generation infiltration

Yes I know, you know
