Keep on, stuck on the moment I am in
Got to get more than you could ever think

Lost in the moment I'm in
Lost in the moment I am in

Don't you dare remind me of who I am
Hard to bare it's all coming to an end

Lost in the moment I'm in
Lost in the moment I am in

It's all coming to an end
And all I can do is pretend
It's all coming to an end
Am I right?
Lost in the moment I am in

The motion that I'm drifting in is getting bold
The stories made up have already been told
The secrets I once kept who wrote them all down?
Say: fake! say: fake!
It's here and right now

It's all coming to an end
And all I can do is pretend
It's all coming to an end
Am I right?
Lost in the moment I am in
