

A Home. A Heart. Whatever. "This Head Aches"

Visit "[This Head Aches](#)" on MotoLyrics.com

It took a long time for me to get it right
You say better rush, so take some time
Remembering all the lights
Get some sleep tonight
In a hush I'll find
What's mine
What's fine
Don't whine

My head aches much more than yours
I got to tell you, that's what I wanna do
More than yours ever did
It aches much more than yours
But I got over it

Words if undefined seemed to be a crime
So far below the line and for sure unkind
Got hard to see no hope no sympathy
I won't deny
It's time
For me
To see
I'm free

My head aches much more than yours
I got to tell you, that's what I wanna do
More than yours ever did
It aches much more than yours
But I got over it

After all this time
I found out what's mine
I found out what's fine
It's fine don't whine
