

A House

"Make Me Proud"

You stay in (night after night)
You're a prisoner in your own home (night after night)
You know how it feels to be lonely (night after night)
All you have to hold on to is your memories (night after night)

But, tonight, take my hand
Tonight, take my hand
And dance with me
Hold me and make me proud

You go home (night after night)
You know how to feel sorry for yourself (night after night)
Crawl into bed on your own (night after night)
All you have to look forward to is your dreams (night after night)

But, tonight, take my hand
And tonight, take my hand
And dance with me
Hold me and make me proud

Don't you understand? (You're beautiful)
Why can't you believe? (You're beautiful)
Put on your new frock (You're beautiful)
And some soft make-up (You're beautiful)

And tonight, take my hand
Tonight, take my hand
And dance with me
Promise me, you'll make me proud
You'll make me proud
You'll make me proud
