Do you know, do you know, you're heading for a  
breakdown.

Do you see, you see, your soul fading away.

Money will not define you,

More money will make you pay.

Beware, beware, your expiration is due in May

She spends the night time turning tricks,

She's in it for the kicks, She's in it for the kicks.

She likes the pain she gets her fix.

Slow down, slow down, take a long look in the mirror

You see, you see, this path is not the way

Money will not define you,

No money will make you pay.

Beware, beware, you're falling deeper day by day

She spends the night time turning tricks,

She's in it for the kicks, She's in it for the kicks.

She likes the pain she gets her fix.

She spends the night time turning tricks,

She's in it for the kicks, She's in it for the kicks.

She likes the pain she gets her fix.
