Think down here counting up the way  
Around where the years pass silently  
I was struck by misfortune in a single night and day  
Closer came the ways and washed over me  
Cause I know a secret eye on the route of... act like is  
In my heart my whole  
... has the answer for this emptiness in me my emotions  
Tart to  
And wash over me  
Cause I know a secret isle under water act like is in my  
Arms my own

Cause I know a secret eye on the route of... act like is  
In my heart my whole  
... has the answer for this emptiness in me my emotions  
Tart to Â...  
And wash over me wash over me  
Wash over me wash over me  
Wash over me wash over me  
Wash over me wash over me  
Wash over me wash over me  
Wash over me wash over me
