False Gods Render Death by A Loathing Requiem  
let their  
be light shed upon the human flesh  
to fabricate their minds to think a purpose must exist  
divinity, the path to constant nonsense, pain and war  
forevermore for the locust swarm is constantly around  
us  
and I shall advocate as they suffocate  
in the wrath of their war

deceased will stride throughout the  
hollows of a broken world  
as if their bodies were wax  
swept with a flame that would never die

those that will not except this  
those that will not retreat  
are those who's bodies will be lost in the sea  
of endless fire and suffering

false gods render death

fear and uncertainty

manufactured components for controlling the sheep

let their be light shed upon the human flesh  
to fabricate their minds to think a purpose must exist  
divinity, the path to constant nonsense, pain and war  
forevermore for locust swarm is constantly around us

forge an army to manipulate vapidly

worship your false gods  
embellish your wisdom  
tarnished by deceit  
admit defeat

cattle leading cattle to failure  
cattle leading swine to falsify purity

false gods render death
