Cool night, hot days  
See hear touch feel & taste  
To give to take  
To mend that which I break  
These things I am so thankful that I have

Open my eyes  
Make me realise  
That life ain't so bad after all

I'm On the drug that I like to call life  
Almost stopped breathing but I've come back to life  
Suddenly I am weightless and I'm staring at the sun  
All of my knots one by one come undone  
I'm on the drug that I like to call life  
Almost stopped breathing but I've come back to life

That I wake up  
Every single day  
The people that I know  
The people that helped me grow  
These arms & these legs  
That you and me aren't dead

And open my eyes  
Make me realise  
That life ain't so bad after all

And I'm On the drug that I like to call life

Almost stopped breathing but I've come back to life  
Suddenly I am weightless and I'm staring at the sun  
All of my knots one by one come undone  
I'm on the drug that I like to call life  
Almost stopped breathing but I've come back to life

Cause I feel the same things you feel  
Cause I feel the same things you feel

Suddenly I am weightless and I'm staring at the sun  
All of my knots one by one come undone  
I'm on the drug that I like to call life

Almost stopped breathing but I've come back to life

And I'm On the drug that I like to call life

Almost stopped breathing but I've come back to life

And I'm On the drug that I like to call life

Almost stopped breathing but I've come back to life
