

## A Storm Of Light "Mass"

Visit "[Mass](#)" on [MotoLyrics.com](https://MotoLyrics.com)

What I have seen  
Let me repay  
Their lives  
Their dreams

I'll give this mass  
To the depths to crush  
And rust my shell  
I could have saved them

What I could have done  
They will never know  
While they died in pain  
I kept afloat  
I could have saved them  
I could have sunk down

I was constructed for this  
It was not my choice  
What I could have done

They will never know  
While they died in pain  
I kept afloat  
What I could have done  
They will never know

I offer this vessel  
To pay them back  
I will seek the ice  
And I will breach this hull  
I will give myself completely  
And I will feel the water rush in  
I will watch these men drown  
And I will sink down

To the depths to crush  
And rust my shell
