Let me introduce myself doc
Take this sedative hold it off
My life seems to be wearing out
I am stuck in the same clothes
Smoke is rising it makes me sick
Listen close and you'll hear it scream
I am gonna get you
They say we always burn up quickly
But I
Will suffocate before
These flames engulf me
Are you with me?
Are you with me?
I cast the role I do insist you play the part
Raise the bodies
They will dance for you
Raise the bodies
They will dance for you
(So let's party)
Charred skin black bones I'm drunk when in Rome
Charred skin black bones sunlight take me home
