

Paintbox City "Down"

Visit "[Down](#)" on MotoLyrics.com

I stand on top of the tallest tower in this town and i fly
ever so high

Can you tell me this now, would you even care, if i
sacrificed my own life and soar right threw the air?
No? so i scream

Down down down down, upon you
Down down down down, to make it clear
Down down down down, To the world
I wont stand here and be patronized by you

Think that I have got the smallest state of mind, don't
you know that I'm no fool
Attention attention please can i ask a question do you
know what it feels like
No? Well let me fill you in,
so i scream

Down down down down, upon you
Down down down down, to make it clear
Down down down down, To the world
I wont stand here and be patronized by you

I stand on top of the tallest tower in this town and i fly
ever so high
Attention attention please can i ask a question do you
know what it feels like
No? Well let me fill you in,
so i scream

Down down down down, upon you
Down down down down, to make it clear
Down down down down, To the world
I wont stand here

Down down down down, upon you
Down down down down, to make it clear
Down down down down, To the world
I wont stand here and be patronized by you
