I hope this day can stay and last forever  
Surrounded by smiles when where together  
I cant imagine the day I leave all this behind  
I promise you I will never turn blind

Please don't wait for me, at night  
Coz I will be here right by you side

Nothing can tare us apart, Coz we are stronger then  
ever  
You and me will always last forever,  
No matter how far away, we will always seem to remain  
As you and me we'll always last forever

I hope this song shows you how much you mean to me,  
The 1st thing that I was is for you to see  
That when im gone nothing will ever change  
I promise you we will never re-arrange

Please don't wait for me, At night  
Coz ill be over tomorrow night

Nothing can tare us apart, Coz we are stronger then  
ever  
You and me will always last forever,  
No matter how far away, we will always seem to remain  
As you and me we'll always last forever

Last forever, Oh, Last Forever  
Last Forever, Oh, Last ForÃ¢Ä!..
